

How Many Stars?

3/09

1. How many leaves on a twig?
How many twigs on a branch?
How many branches on a grandfather tree?
How many trees in a grove?
How many groves in a forest?
Leaves us with how many leaves?
2. How many water drops fill up an ocean?
How many grains of sand fill up a beach?
How many friendly smiles fill up a lifetime?
How far does one smile reach? (Chorus)

Chorus: How many stars in the Milky Way?
How many humans have passed this way?
Out of the billions who've been here too
There's only one just like you!
There's only one just like you!

3. How many days in a week?
How many weeks in a year?
How many years in a decade go by?
What makes a century?
What makes a millennium?
How many days in ten thousand years? (Chorus)
4. How many times does a heart beat in a minute?
How many times in an hour?
How many hours of heartbeat in a lifetime?
Make every heartbeat count! (Chorus)
