

Listen While You Listen

Listen with your ears, listen with your eyes
Listen with your heart, your heart will make you wise
Listen with your bones, listen with your nose
Listen with your body from your head to your toes

Listen to the morning, listen to the night
Listen with your green, yellow, blue, red and white
Listen to the wind whistling through the trees
Listen with your elbows, listen with your knees

Come on inside the music
It's everywhere you go
Listen while you listen
And wonders you will know

Listen with your hands, listen with your feet
Listen to your body dance to your heart beat
Listen to discover the rhythm in the water
Listen to your mother, listen to your father

Listen in around about and in between
Listen what song's about in everything
Listen with your ears on the inside too
Listen for the song inside calling you
