

Living & Giving

Living and giving like the sun gives warmth and light
Living and giving like the stars shine through the night
Living and giving so another's life may shine

(Chorus)

All of living is a gift given from above
Give the living of your life for this great love

Living and giving is what makes the heart beat strong
Living and giving is to help another along
Living and giving is the way to find your song

(Chorus)

Living and giving is the song of the human heart
Living and giving is the pathway to the stars
Living and giving is the graceful human art

(Chorus)
