

Plant a Seed

Plant a seed in the ground
Rain, rain, come sprinkling down
Sun, sun, come shining out
Next thing you know the seed's a sprout

Sprout grows up roots grow down
Rain, rain, come sprinkling down
Sun, sun, come shining out
Now there's a seedling where once was a sprout

Seedling grows up roots grow down
Rain, rain, come sprinkling down
Sun, sun, come shining out
Now there's a tiny tree strong and stout

Tree grows up roots grow down
Rain, rain, come sprinkling down
Sun, sun, come shining out
Now there's a tree we sing all about

Grow, Grow, Grow.....
