

## Sparks

You came here from a shining star  
Far far away  
A tiny spark now here you are  
On the journey home  
(Born away from home)

The sparkle in your eyes  
Comes from far far away  
Far away and so nearby  
On the journey home

The spark that makes your heart beat  
Comes from far far away  
The same in everyone you meet  
On the journey home

The glow upon your human face  
Comes from far far away  
Let your light shine everyplace  
On the journey home
