

## Summer Rain Song

10/2008

The Sun is rising                   C F F C  
The sky is blue                    G C  
The birds are singing            F Bb F G  
And I am too  
A warm breeze                    GCGCGC...F  
Ruffles the trees  
Listen to the buzzing  
Of the wildflower bees

Now the sun is way up high  
Thunderclouds are walking by  
The wind is blowing gentle and strong  
I can hear the sound of the summer rain song

Il: Boom Boom Boom               C C C  
says the thunder clap            F F F  
Lightning and thunder            F F F  
Zap Zap Zap                       G G G  
Here comes the wind, here comes the rain   G C  
Here comes the lightning and thunder again :ll   F Bb F G

Pitter Patter Pitter Patter  
Comes the rain  
A little... then a lot  
Then a little again.
